Coaches

## How to use QR Tips

Five simple steps to receiving cashless payment for services using your smartphone:

### Step 1.

You sign up on the platform

### Step 2.

Generate a QR code

### Step 3.

Show the QR code to the customer

### Step 4.

The customer scans the QR code and goes to the payment page

### Step 5.

The customer enters the amount and confirms the transfer

# Advantages for **restaurant and café owners**

Additional monetization of your hospitality. Guests have never felt more comfortable leaving a tip. Additional motivation for your team to provide the best service.

 Employees do not pay taxes on tips

Motivate your employees

Get 20-30% more in tips

Increase guest loyalty

Increased table turnover

Get guest reviews

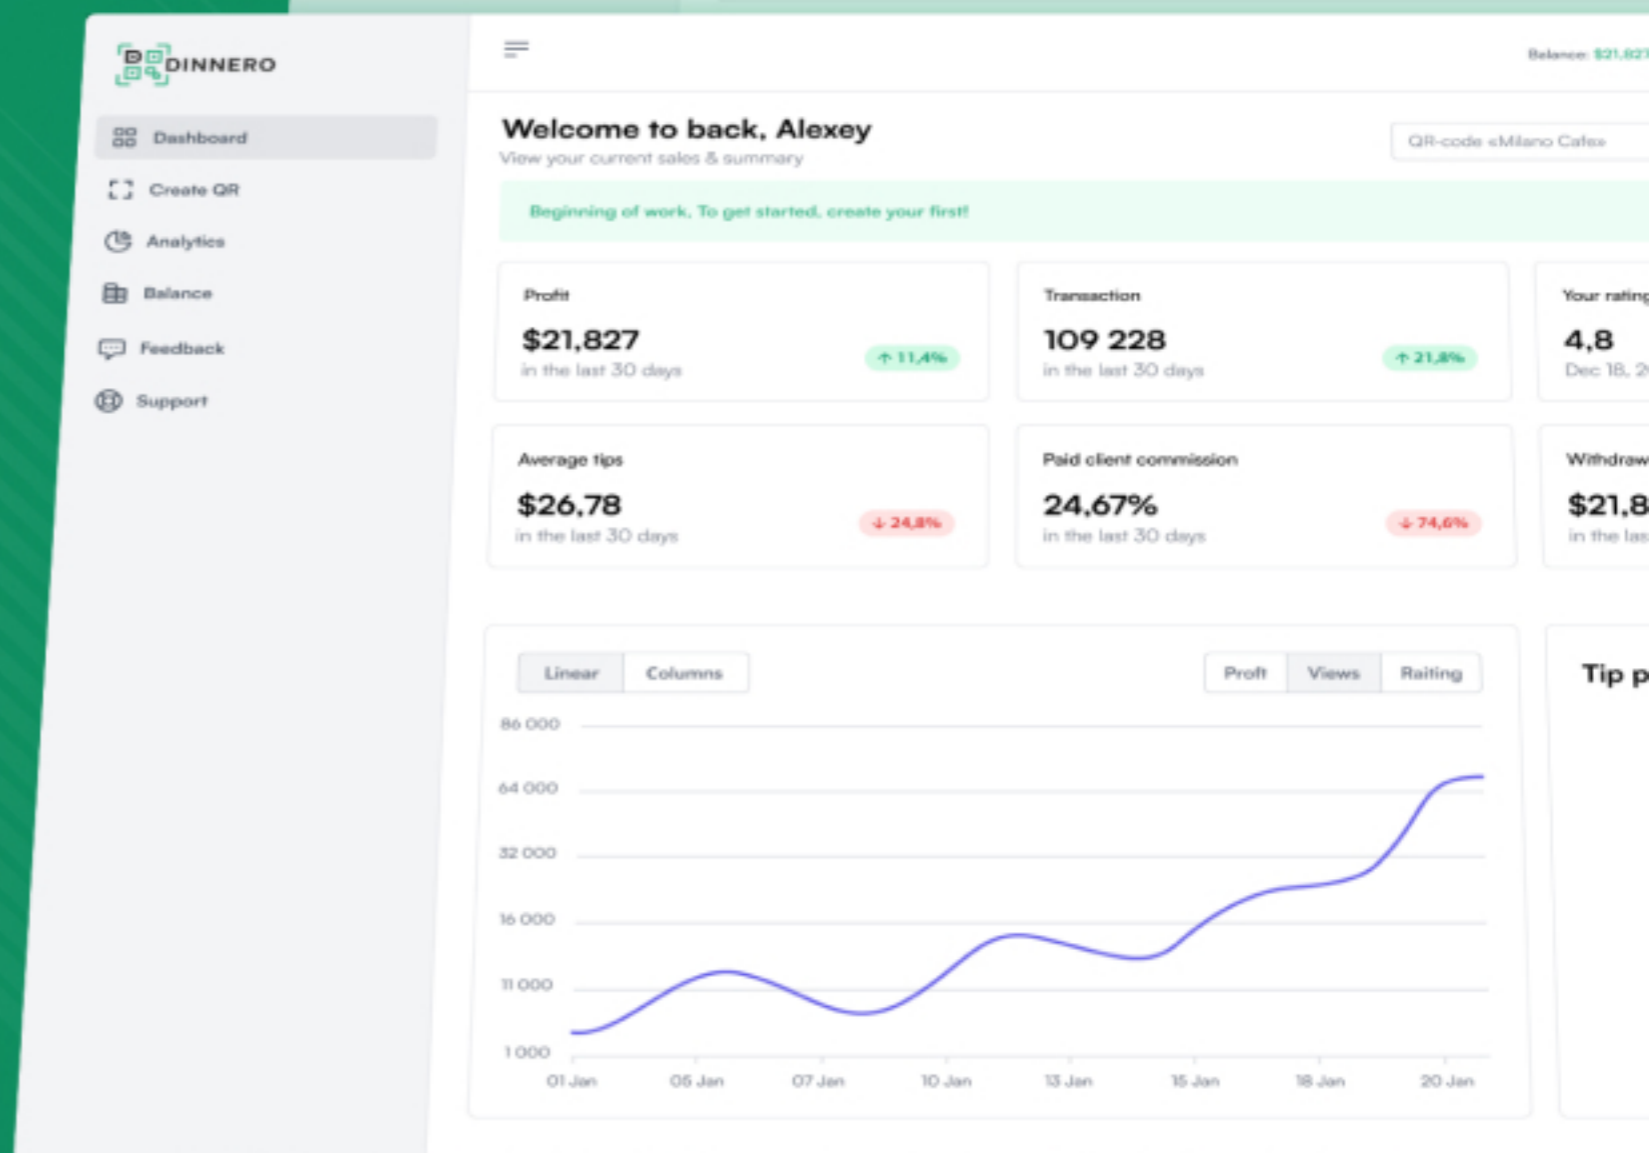

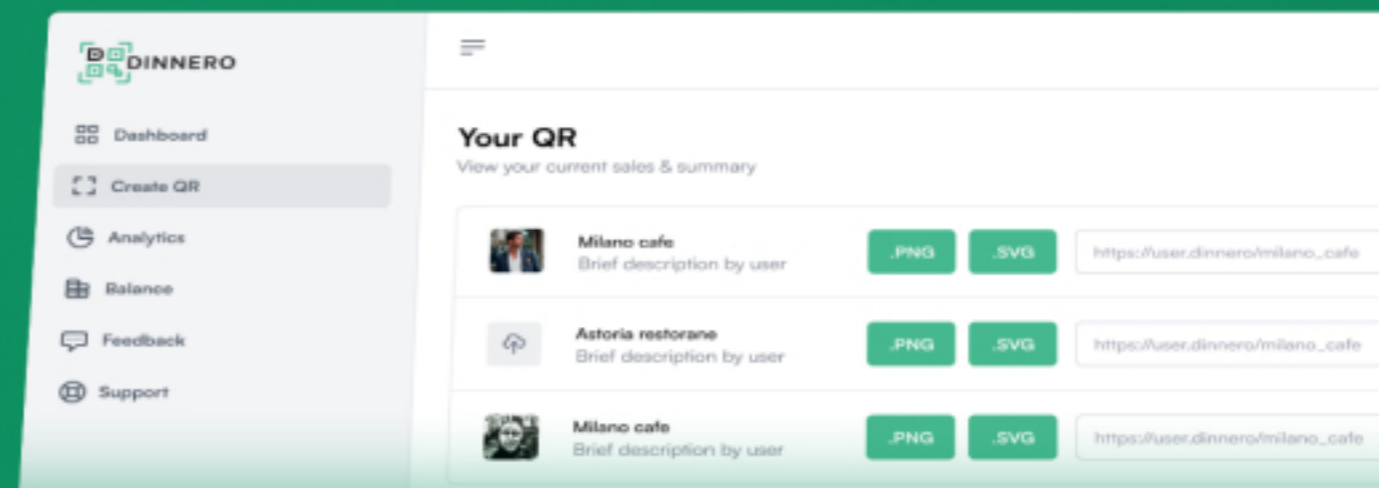

Team performance statistics

# Convenient personal account

Everything under control! Convenient financial management, access to statistics and reports, history of receipts and withdrawals of money.

## Convenient **money withdrawal**

You can transfer earned funds to your personal account at any time. The speed of crediting depends on your bank.

## Feedback from customers

Collect reviews and ratings from your customers. Not only will it help you improve the quality of your work, but it will also create a positive image of your business.

A handwritten signature in black ink, appearing to read 'John Black', positioned above a row of five stars.

## Transactions **via secure acquiring**

Your funds are kept in the bank, ensuring maximum security. All transactions go through a secure payment processing process and data is encrypted using advanced technology. This means that your information and funds are reliably protected.

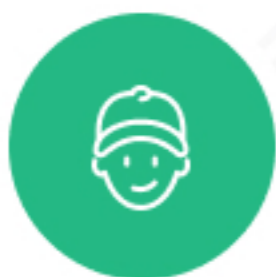

Personal data is protected

## Service commission

Service for instant tips and donations, cashless payment for goods and services. Fast, safe and convenient!

More than 90% of clients agree to pay the commission

Our service commission is no more than 5%

Details about commission and limits in your personal account

## Various formats for placing QR codes

We will demonstrate how to effectively use QR codes, provide training, and assist in preparing materials.

### On the tables

QR code can be placed on stickers or table tents

### On receipts

Placement on receipts allows you to add an individual QR code for each employee

### On business cards

Create a business card with a personalised QR code and save it to your smartphone

### On packaging

Great solution for food courts and delivery
